RESTING SNOWDROP BULB LIST 2013

How do you know that the bulb is true to name if it has not got leaves or flowers?

Almost all the bulbs offered in our list are grown in carefully labelled pots in shade tunnels where they are protected from narcissus fly. The huge majority offered have been grown from twin scales; some have been grown on from the garden. They have all been checked to the very best of our ability as true to name and healthy at flowering time. The bulbs are also checked carefully before dispatch when they can be easily seen and examined.

We are not intending to issue an 'In The Green' list in January 2014. We will hope to sell special snowdrops at five events during January and February 2014 Please ask in December if you would like details of these events sent by E-mail.

Please complete in BLOCK CAPITALS [printing your E-mail address] after completing your order form overleaf.
